### Peak Power Shaving Opportunity

It's that time again! As warmer weather looms, American Municipal Power (AMP) has begun releasing peak shaving recommendations. Remember, peak shaving allows the Village and its residents to save on energy costs in subsequent years. The Village will periodically release these peak shaving events when notified by AMP that they expect higher temperatures and peak usage.

AMP recommends peak shaving on **Monday, June 12<sup>th</sup>, Tuesday, June 13<sup>th</sup> and Wednesday, June 14<sup>th</sup>** between the hours of **2:00 PM and 6:00 PM**. Cutting electric consumption during these hours could reduce our carbon footprint as well as save Village residents on energy costs next year. Please limit your use of electric during those hours.
