- other _____

I would like to be considered a member of the informal Producers Group supporting Channel 5 and would like to meet with others creating content for the station.

Welcome to Yellow Springs Community Access Channel 5

The mission of the Yellow Springs Community Access Channel is to work with local government, community members and community organizations to create and cablecast programs that promote a sense of community and celebrate individual expression, local achievements, learning, cultural exchange, and civic engagement.

The channel has the equipment to produce professional quality programs - from simple taping of local meetings or events to more complicated multi-camera productions.

The use of all of the equipment is free and available to any resident of the Village provided the production is available for our broadcast. We will instruct you at no charge, and there are advanced classes available in the area.

We need volunteer help to run the "head end" of the channel, which is the cablecasting part of the operation. We can use help in all the areas on the other side of this form:

If you are interested please fill out the other side of this sheet and leave it in the basket by the entrance to the Bryan Center.
